LOCAL DENTIST COMPLETES AESTHETIC DENTISTRY COURSE AT THE PANKEY INSTITUTE

COUNCIL BLUFFS, Iowa, June 10, 2010 – Dr. David Jones of Omni Dental recently completed the Aesthetics course at the Pankey Institute for Advanced Dental Education in Key Biscayne, Florida. Dr. Jones participated in a course that focuses on designing naturally beautiful smiles in such a way as to optimize the long-term oral health, comfort, function and appearance of his patients.

A recent surge in interest in cosmetic dentistry, thanks in part to popular makeover television shows, has created a demand for dentists that clearly understand the latest skills and concepts. Through this course, Dr. Jones was able to explore the most up-to-date technology and techniques in cosmetic dentistry. Committed to continuing education, Dr. Jones will draw upon this experience, as well as his other studies in areas such as minimally invasive laser dentistry and implant training, to provide his patients with advanced, comprehensive dental care.

The Pankey Institute for Advanced Dental Education is one of the most prestigious post-graduate dental schools in the world. Its courses of study are recognized by leading dental associations and attract students from all over the world who want to provide their patients with top-quality, personalized care.

Dr. Jones, along with Dr. James Knott and Dr. Grant Flenker lead the dental team at Omni Dental at 300 W. Broadway, Suite 30 in Council Bluffs. They are accepting new patients and can be reached at (712) 328-8573.
